Profile

Passionate Android Developer that thinks that android apps can, and must, be the most beautiful mobile applications. 10+ years of full-time Android Development experience.

Before that I've spent 10 years designing and developing Basic Systems in C and C++, having worked on large projects focusing on high-availability and network performance.

Highly self-taught person with ability to learn and develop skills quickly. Enthusiast in complex challenges and creating/developing solutions.

Former Android Google Developer Expert (GDE).

Android Experience

Senior/Lead Android Engineer, Citizen.com, Remote — Oct/2021-Jan/2023

Senior Android Engineer on _**Citizen: Local Safety Alerts**_.

I was the Tech Lead for the Compose effort (rewriting some screens into Compose and all new functionality), being responsible for the coding standards and patterns used with Compose, code reviews, etc.

Senior/Lead Android Engineer, Eyeo GmbH, Remote — Jun/2020-Jul/2021
